Instructional Designer || Learning & Organizational Development Specialist || Training & Talent Building

EXECUTIVE SUMMARY

I am a result oriented, performance-focused Learning and Organizational Development professional with 10 years of experience in building Leadership, Managerial and Sales Interventions with skills in driving Talent Development and Learning, researching, designing training, communications, and human capital management interventions across various companies.

WORK EXPERIENCE

Grace Community Care (GCC), Training Coordinator, 2026 – to present

- Led end-to-end training coordination and onboarding for Housing Specialists and Case Managers, ensuring consistent understanding of Housing Support program workflows, policies, and service expectations.
- Designed and implemented structured onboarding programs, including orientation sessions, role-based learning paths, and transition support for new hires during their first 30–60 days.
- Managed and optimized training operations within TalentLMS by creating, organizing, and assigning course modules, improving accessibility and completion tracking across teams.
- Monitored staff training progress and compliance metrics, proactively identifying gaps in completion, documentation accuracy, and policy adherence.
- Developed and continuously updated training materials aligned with evolving program policies, Medicaid documentation standards, and audit requirements.
- Delivered targeted training sessions on housing stabilization services, client engagement strategies, and program-specific workflows to improve service delivery quality.
- Strengthened staff understanding of Medicaid service documentation and audit expectations through scenario-based learning and real-case examples.
- Coordinated cross-functional training initiatives focused on housing search strategies, landlord engagement, and community resource navigation.
- Facilitated structured shadowing programs and hands-on field training to bridge the gap between theoretical learning and real-world service delivery.
- Provided ongoing coaching and performance support to new hires during onboarding, improving confidence, client interaction quality, and task execution.
- Identified operational inefficiencies and skill gaps through training data, audits, and staff feedback, and introduced targeted interventions to improve performance.
- Recommended and implemented enhancements to onboarding workflows, training systems, and standard operating procedures/checklist to improve consistency and scalability.
- Facilitated periodic refresher trainings and continuous learning initiatives to reinforce compliance, policy adherence, and service quality.
- Supported long-term workforce development by promoting structured learning, accountability, and continuous improvement across teams.

Vineyard App Camp and Built By Me, After School Program Instructor, October 2025 – to March 2026 (Part time engagement)

- Managed end-to-end training coordination for instructors across multiple Edison locations, maintaining schedule alignment and program consistency. •
- Trained and supported new instructors on lesson execution, partnering with recreation and school centers to ensure seamless facilitation and positive learner experiences. •
- Facilitated structured Coding and LEGO Coding sessions for Grades 2–5, introducing foundational programming concepts through hands-on robotics and problem-solving activities.
- Delivered age-appropriate lessons across STEM labs aligned with defined learning objectives.
- Designed interactive, project-based activities promoting creativity, collaboration, and critical thinking.

- Adapted instructional strategies to diverse learning styles to ensure engagement and confidence among all students.
- Maintained a positive, inclusive classroom environment that balanced structured learning with fun.
- Encouraged participation and nurtured curiosity through supportive guidance and effective classroom management.

Independent Consultant, October 2024 – March 2026

- Conducted training needs assessments and stakeholder interviews to inform design of leadership and behavioral development programs.
 - Collaborated with SMEs to develop learning objectives and blended learning modules tailored for diverse learner groups.
 - Designed and facilitated virtual training programs, adapting delivery methods to align with learner needs and engagement styles.
 - Developed instructional materials, assessments, and post-training reinforcement strategies to support knowledge application.
 - Designed and delivered virtual training programs for U.S.-based clients, including modules on Problem Solving, Influencing Skills, and Creativity & Innovation, Leadership Development, Coaching, Agile Leadership and Communication skills.
 - Gained hands-on experience with eLearning development tools such as Articulate Storyline, Rise 360, Adobe Suite, Vyond and Clipchamp, including voiceover, assessments, and multimedia integration.
 - Designed learner-centric materials to support virtual learning environments, with a focus on knowledge retention and skills application.
 - Adept at program logistics, reporting training effectiveness through LMS (Learnworld) and driving continuous improvement of learning initiatives.
 - Transformed *Coaching for Success* vILT content into self-paced eLearning modules, ensuring seamless content flow, engagement, and consistency.
 - Redesigned an instructor-led “Time Management” workshop into an optimized onboarding learning experience, enhancing participation and learner satisfaction.
 - Created a comprehensive instructional storyboard for the “Patient Care Technician” eLearning program, outlining learning flow, content sequencing, and assessments.
 - Developed a compliance-focused “Secure Coding” e-learning module for software development teams, aligning content with organizational security standards and regulatory requirements.
-

Lee Hecht Harrison (LHH), ID Specialist, 2020 - 2021

- Led Training Needs Analysis (TNA) across four business units to design targeted development interventions.
 - Designed and updated instructional materials, assessment tools, and facilitation guides for global operations.
 - Partnered with HRBPs and managers to identify participants and align training interventions with organizational goals.
 - Facilitated in-person and virtual assessment centres and behavioural workshops for 500+ managers.
 - Developed and updated content to align with the evolving needs of the target audience for global operations.
 - Facilitated behavioural training workshops for managerial levels across India and global operations.
 - Delivered onboarding and developmental training for the new joiners.
 - Delivered coaching sessions to support post-training application and performance improvement.
 - Collaborated with SMEs to co-develop and refine learning content.
-

GeBBS Healthcare (Knowledge Process Outsourcing), Assistant Manager - L&D, 2015-2019

- Managed end-to-end logistics, scheduling, and resource allocation for leadership, compliance, and functional training programs.
- Maintained training calendars, documentation, SOPs, and participant communications across India operations.
- Tracked participation, evaluated training effectiveness, and shared insights with leadership for action planning.
- Partnered with external vendors for specialized program delivery and assessments.
- Conducted competency mapping and delivered competency-based workshops for managerial and leadership levels.
- Created and executed training development initiatives for LEAP, LEAD and Gennex aimed at enhancing the performance of high-potential employees.
- Designed and facilitated capability development sessions using simulations, case studies, and role-plays.
- Delivered refresher sessions on Prevention of Sexual Harassment (POSH) for designated fact finders.
- Administered psychometric tools (Watson, Personality Assessment, 180-degree, 360-degree, DISC, PSI) and designed assessments for team lead levels.
- Conducted onboarding, customer service, and product training programs, ensuring alignment with business goals.
- Completed over 15,000 hours of facilitation, supporting learner transition and performance improvement initiatives.
- Applied the Kirkpatrick Model to evaluate training effectiveness—measuring learner engagement, knowledge gain, behaviour change, and business impact, including performance improvements and cost savings (e.g., reducing attrition from 400% to 100%).

Acumen Business Consulting, Associate Consultant, 2010-2015

- Consistently generated revenue year-over-year by fostering strong relationships with existing clients and maintaining client retention.
 - Analysed data and provided management with insights and strategic recommendations.
 - Marketed a diverse range of training programs, from leadership and values-based workshops to sales meetings, content development, and other soft and functional skills workshops across multiple industries.
 - Managed end-to-end Organizational Development projects with durations ranging from 6 months to 2 years.
-

ACCOMPLISHMENT

- Received Best Performer Award in 2016 and 2017 at GeBBS Healthcare.
 - Received Best Performer Award in 2021 at LHH India.
